## Assignment 03 Adobe Dreamweaver Introduced

Create HTML codes to create the webpage sample shown below and upload to the server called: [people.rit.edu/](http://people.rit.edu/)(**your RIT DCE account characters**)

### 01. Learning Tools

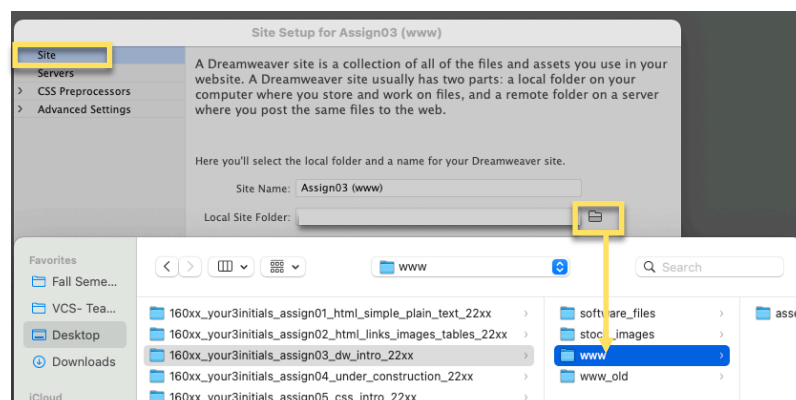

- Textbook: prior reading assignments
- MyCourses > assign00\_File Naming Protocol.pdf
- MyCourses > HTML Codes.pdf
- MyCourses > Set-Up Dreamweaver.pdf
- MyCourses > Set-Up Server Connection.pdf
- MyCourses > Format and Compress Images.pdf
- Practice with codes: [https://www.w3schools.com/html/html\\_examples.asp](https://www.w3schools.com/html/html_examples.asp)

### 02. Properly store .html, .jpg, .gif files in their appropriate sub-folder within the parent folder: 160xx\_your3initials\_assign03\_dw\_intro\_22xx

### 03. Set-up “Manage Site” or Site > New Site in Dreamweaver as:

Site Name: assign03 (www)

Local Site Folder: (browse to your sub-folder labeled www)

### 04. Name the Document Title as: 160xx\_your3initials\_assign03\_22xx

### 05. Name the HTML file/webpage as: index.html

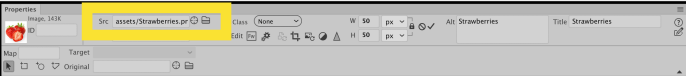

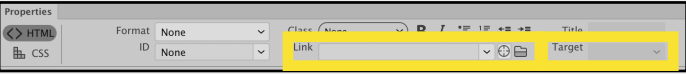

### 06. Type or copy/paste the text (see below)

07. Select: Window > Properties
08. Apply HTML codes and URL links to match the screenshot of the finished website
  - a. All website URL links must use "Absolute URLs" = https://...
  - b. All website URL links must be set to target="\_blank"
09. Organize/align and proof-check your codes within Dreamweaver and in a browser
10. MyCourses > Set-Up Server Connection.pdf explains how to upload
 

Upload the assignment to <https://people.rit.edu/yourDCE> and view it on a browser

  - a. Create and place a screenshot (Shift + CMD + 4) containing the browser's URL and the webpage design
  - b. Place it into: 160xx\_web\_design\_class\_22xx > 160xx\_your3initials\_assign03\_dw\_intro\_22xx > stock images
  - c. Label the file as: 160xx\_your3initials\_assign03\_design\_22xx
11. Zip the assignment folder and upload to MyCourses > Assignments
12. Back-up your desktop files to Google drive or an External HD

<u>Type or Copy/Paste</u>	<u>Add Format</u>
This is my second attempt creating a website using Dreamweaver	Format: Heading 2 (applied to the full sentence)
This line is in bold.	Format: Heading 3 (applied to the full sentence) Font style: Bold (to only the word "bold")
This line is in bold and italic.	Format: Heading 3 (applied to the full sentence) Font style: Bold (to only the words "bold and italic") Font style: Italic (to only the words "bold and italic")
This line is centered.	Format: Heading 3 (applied to the full sentence) Center the sentence using HTML code for center < > because there is no center button provided in Window > Properties' GUI
My favorite fruits are:	(Default Format - no formatting to be applied)
Strawberries Blueberries Pineapples Oranges	(Default Format - no formatting to be applied) Add a bullet to each line 

<p>Pick any logo image, a cluster of strawberries, blueberries, pineapples and oranges.</p> <p>Download an uncopyrighted image from <a href="http://freeimages.com">freeimages.com</a> or other website option listed in MyCourses' homepage &gt; Quick Links &gt; Stock Photo Resources</p>	<p>Format and Compress all images at 72ppi and less than 1MB</p> <p>Resize the width and height for it to appear less than 2 inches</p> <p>Center by inserting a HTML tag &lt; &gt; to position the text to the center</p> <p>From the Files Panel, press “refresh” icon and drag the each image file into the workspace</p> 
<p>Mouse-click the logo</p>	<p>Resize the width and height for it to appear less than 2 inches</p> <p><u>Add an alt tag and title tag for the blind</u></p> 
<p>Mouse-click on a fruit image (Repeat for each fruit image)</p>	<p>Resize the width and height for it to appear less than 2 inches</p> <p>Align to the bottom-edge of the name of each fruit (the image will not be centered on the line)</p> <p>Add an alt tag and title tag for the blind.</p>
<p>My favorite links are:</p>	<p>(Default Format - no formatting to be applied)</p>
<p>Type/list any 3 websites For each, select/highlight and type an Absolute URL and set the Target to have the browser open a new screen/tab</p>	<p>(Default Format - no formatting to be applied) Provide an Absolute URL starting with https://)</p> 
<p>That's all Folks!</p>	<p>(Default Format - no formatting to be applied) Center the sentence by inserting a HTML tag &lt; &gt; to position the text to the center.</p>

(Your first and last name)	(Default Format - no formatting to be applied) Center your name by inserting a HTML tag < > to position the text to the center.
(Insert today's date using): Window > Insert > HTML > Date OR Insert > HTML > Date	(Default Format - no formatting to be applied) Center your name by inserting a HTML tag < > to position the text to the center.
